## **INDEPENDENT AUDITOR'S REPORT**

### **To the members of Shirazi Investments (Private) Limited**

#### **Report on the Audit of the Financial Statements**

##### **Opinion**

We have audited the annexed unconsolidated financial statements of **Shirazi Investments (Private) Limited** (the Company), which comprise the statement of financial position as at **30 June 2021**, and the statement of profit and loss and other comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at 30 June 2021 and of the profit and other comprehensive income, the changes in equity and its cash flows for the year then ended.

##### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

##### **Information Other than the Financial Statements and Auditor's Report Thereon**

Management is responsible for the other information. The other information comprises the Director's report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **Responsibilities of Management and Board of Directors for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### **Report on Other Legal and Regulatory Requirements**

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in fund and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) no zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit resulting in this independent auditor's report is Shaikh Ahmed Salman.

**SHIRAZI INVESTMENTS (PRIVATE) LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JUNE 30, 2021**

**1. THE COMPANY AND ITS OPERATIONS**

1.1 Shirazi Investments (Private) Limited (the Company) was incorporated in Pakistan on August 27, 1962 as a private limited company. The Company is engaged in trading and investment in equity and debt securities, underwriting, real estate and warehousing. Its registered office is located at 2nd Floor, Federation House, Sharae Firdousi, Clifton, Karachi.

1.2 Geographical location and addresses of business units are as under:

1.3 These financial statements are separate financial statements of the Company in which investments in subsidiaries and associates / joint venture are accounted for at cost and fair values respectively (note 10) and are not consolidated or accounted for by applying the equity method of accounting.

1.4 On May 13, 2016 the Board of Directors of the Company had passed a resolution authorizing the Company to explore the viability of the potential merger between the Shirazi Capital (Private) Limited (SCPL) and Shirazi (Private) Limited (SPL) with and into the Company. The Company had engaged the services of a consultant and decided on a swap ratio in exchange of shares for SCPL and SPL and a scheme of amalgamation (the scheme) was filed in High Court of Sindh after approval from the Board of Directors and shareholders of the Company, SCPL and SPL on June 11, 2016.

In 2017, the High Court of Sindh through its order dated November 23, 2016 has sanctioned the scheme. Pursuant to this sanction, the entire business of SCPL and SPL including their Assets, Liabilities, and the Rights and Obligations have been amalgamated into and vest in the Company with effect from the effective date as mentioned in the scheme i.e., July 01, 2016 which the Company has considered effective date of merger. In consideration, 91,819,873 fully paid ordinary shares of Rs.10 each have been issued to the registered shareholders of SCPL whereas 9,572,566 fully paid ordinary shares of Rs.10 each have been issued to the registered shareholders of SPL.

This amalgamation was accounted for in the books using predecessor's accounting method as it was a business combination of entities under common control and therefore scoped out of IFRS-3 'Business Combinations'. The net assets of SCPL and SPL have been incorporated at their net carrying amount in the books as on June 30, 2016 and the difference in value of the net assets and shares as issued above has been carried in the equity under the head "Amalgamation reserve". Furthermore, the acquired entity's results and statement of financial position are incorporated prospectively from the date on which the business combination occurred. Consequently, these financial statements do not reflect the results of the acquired entity for the period before the transaction occurred and the corresponding amounts for the previous year presented are also not restated.

**1.5 Impact of COVID-19 pandemic on these financial statements**

The COVID-19 pandemic caused significant and unprecedented curtailment in economic and social activities during the period from March 2020 in line with the directives of the Government. This situation posed a range of business and financial challenges to the businesses globally and across various sectors of the economy in Pakistan.

The Company's major source of income is dividend from subsidiaries and associates and rent from investment properties. The Company has a very diversified portfolio, the investee company's main production and distribution facilities in Sheikhpura have been permitted by the Government to operate with strict compliance of SOPs issued. The management has adopted all necessary steps to ensure smooth and adequate continuation of its business in order to maintain business performance despite slowed down economic activity.

According to management's assessment, there are no material implications of COVID-19 that require specific disclosure in these unconsolidated financial statements.

- 1.6 These financial statements are the separate financial statements of the Company, in which investments in the below mentioned subsidiaries and associates have been accounted for at fair value / cost less accumulated impairment losses, if any. As of reporting date, the Company has the following subsidiaries and associates:

- 1.6.1 The Board of Directors of the AAPL approved a Scheme of Arrangement (the Scheme) on May 17, 2019 for merger / amalgamation of ADL and AAL with and into the AAPL. ADL and AAL were wholly owned subsidiaries of the Company. At June 01, 2019, AAPL filed a petition in the Honourable High Court of Sindh to this effect under sections 279 to 283 and 285 of the Companies Act, 2017. Under the Scheme and upon its approval on October 24, 2019 by the Honourable High Court of Sindh, effective from July 01, 2019, all the business, functions, operations, assets, liabilities and obligations, rights to execute deeds, contracts, legal proceedings, judgments etc. of the Subsidiary Companies were transferred to and vested in the AAPL.

## 2. BASIS OF PREPARATION

### 2.1 Statement of compliance

These unconsolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standard Board (IASB) as notified under the Companies Act, 2017 (the Act);
- Provisions of and directives issued under the Act.

Where provisions of and directives issued under the Act differ from IFRS, the provisions of and directives issued under the Act have been followed.

### 2.2 Basis of measurement

These unconsolidated financial statements have been prepared under the historical cost convention except for investments and derivatives which are accounted for as stated in notes 4.5, 4.6 and 4.7 below, respectively.

**2.3 Functional and presentation currency**

These unconsolidated financial statements are presented in Pakistani Rupees, which is also the Company's functional currency.

**3. NEW STANDARDS, AMENDMENTS, INTERPRETATIONS AND IMPROVEMENTS EFFECTIVE DURING THE YEAR****3.1 Amendments to approved accounting standards and the framework for financial reporting that became effective during the current year**

The Company has adopted the following standards, amendments, interpretation and improvements to International Financial Reporting Standards (IFRSs) which became effective for the current year:

**New standards and amendments**

IFRS 3 Business Combinations - Definition of a business (Amendments)

IFRS 9/ IAS 39 / IFRS 7 Interest rate benchmark Reform (Amendments)

IAS 1 / IAS 8 Definition of material (Amendments)

The adoption of the above amendments to the accounting standards did not have any material effect on the Company's unconsolidated financial statements.

The IASB has also issued the revised Conceptual Framework for Financial Reporting (the Conceptual Framework) in March 2018 which is effective for annual periods beginning on or after January 01, 2020 for preparers of financial statements who develop accounting policies based on the Conceptual Framework. The revised Conceptual Framework is not a standard, and none of the concepts override those in any standard or any requirements in a standard. The purpose of the Conceptual Framework is to assist IASB in developing standards, to help preparers develop consistent accounting policies if there is no applicable standard in place and to assist all parties to understand and interpret the standards.

**3.2 Standards, amendments and improvements to the approved accounting standards that are not yet effective**

The following standards, amendments and improvements to the approved accounting standards as applicable in Pakistan would be effective from the dates mentioned below against the respective standard or interpretation:

| Standard or Interpretation                                                                                         | Effective date (annual periods beginning on or after) |

#### 4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

##### 4.1 Property, plant and equipment

###### Operating fixed assets

Property and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Cost comprises acquisition and other directly attributable costs. Depreciation is charged to statement of profit or loss applying the reducing balance method whereby the cost of an asset is written-off over its estimated useful life at the rates specified in note 6.1 to the financial statements. Depreciation on additions during the year is charged from the month of addition when the asset is available for use, whereas, depreciation on disposals is charged upto the month immediately preceding the deletion.

Maintenance and normal repairs are charged to statement of profit or loss as and when incurred. Major renewals and improvements are capitalised only when it increases the future economic benefit embodied in the item of property and equipment.

Assets residual values, useful lives and method of depreciation are reviewed and adjusted, if appropriate at each reporting date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gains or losses arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is charged to the statement of profit or loss in the year the asset is derecognised.

###### Capital work-in-progress

Capital work-in-progress is stated at cost less accumulated impairment losses, if any. It consists of expenditure incurred and advances made in respect of property and equipment in the course of their acquisition, erection, construction and installation. The assets are transferred to relevant category of operating fixed assets when they are available for use.

###### Right-of-use assets

The Company recognises a right-of-use asset at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost less any accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term.

##### 4.2 Intangible assets

Intangible assets are stated at cost less accumulated amortisation and impairment losses, if any. Intangible assets are amortised on reducing balance method whereby the cost of an asset is written-off over its estimated useful life at the rate specified in note 8 to the financial statements.

##### 4.3 Investment properties

Properties held for long-term rental yield or for capital appreciation or both are classified as investment properties. Investment properties comprise of land, buildings and warehouses.

Investment properties are carried at cost less accumulated depreciation and accumulated impairment losses, if any.

Investment properties are depreciated on a reducing balance method whereby the cost of an asset is written-off over its estimated useful life at the rates specified in note 8 to the financial statements.

Maintenance and normal repairs are charged to statement of profit or loss as and when incurred. Major repairs and renewals are capitalised.

Any gains and losses on disposal of an investment property are recognised in the statement of profit or loss in the year of disposal.

**4.4 Impairment of assets**

The carrying amounts of operating fixed assets and investment properties are reviewed at each statement of financial position date to assess whether they are recorded in excess of their recoverable amounts, and where carrying value exceeds estimated recoverable amount, assets are written down to their estimated recoverable amount.

**4.5 Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**i) Financial Assets****Initial recognition and measurement**

Financial assets and liabilities, with the exception of bank balances, loans and advances to employees /counter parties and due to counterparties, are initially recognised on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

All financial instruments are measured initially at their fair value plus transaction costs, except in the case of financial assets and financial liabilities recorded at fair value through profit or loss.

**Classification**

In accordance with IFRS 9, the Company classifies its financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities discussed below.

**Financial assets**

The Company classifies its financial assets as subsequently measured at amortised cost or measured at fair value through profit or loss on the basis of both:

- The entity's business model for managing the financial assets
- The contractual cash flow characteristics of The financial asset

**Financial assets measured at fair value through other comprehensive income (FVOCI)****a) Debt instruments at FVOCI**

FVOCI debt instruments are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in OCI. Interest income and foreign exchange gains and losses are recognised in profit or loss. On de-recognition, cumulative gains or losses previously recognised in OCI are reclassified from OCI to profit or loss. Debt instruments are subject to impairment under Expected Credit Loss model. The ECLs for debt instruments measured at FVOCI do not reduce the carrying amount of these financial assets in the statement of financial position, which remains at fair value. Instead, an amount equal to the allowance that would arise if the assets were measured at amortised cost is recognised in OCI as an accumulated impairment amount, with a corresponding charge to profit or loss. The accumulated loss recognised in OCI is recycled to the profit and loss upon de-recognition of the assets.

**b) Equity instruments at FVOCI**

Upon initial recognition, the Company elects to classify irrevocably its equity investments as equity instruments at FVOCI when they meet the definition of Equity under IAS 32 Financial Instruments: Presentation and are not held for trading. The Company's policy is to designate equity investments as FVOCI when those investments are held for purposes other than to generate investment returns. Such classification is determined on an instrument by instrument basis.

Gains and losses on these equity instruments are never recycled to profit. Dividends are recognised in profit or loss as other operating income when the right of the payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI. Equity instruments at FVOCI are not subject to an impairment assessment.

**Financial assets measured at amortised cost**

A debt instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Financial assets at amortized cost are subject to impairment under Expected Credit Loss model.

**Financial assets measured at fair value through profit or loss**

A financial asset is measured at fair value through profit or loss if:

(a) Its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

(b) It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell.

or

(c) At initial recognition, it is irrevocably designated as measured at FVPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

**Financial liabilities****Financial liabilities measured at amortised cost**

This category includes all financial liabilities, other than those measured at fair value through profit or loss, if any.

**De-recognition**

A financial asset (or, where applicable, a part of a financial asset or a part of a group of similar financial assets) is derecognised where the rights to receive cash flows from the asset have expired, or the Company has transferred its rights to receive cash flows from the asset, or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement and the Company has:

(a) Transferred substantially all of the risks and rewards of the asset;

or

(b) Neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Company has transferred its right to receive cash flows from an asset (or has entered into a pass-through arrangement), and has neither transferred nor retained substantially all of the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Company's continuing involvement in the asset. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained. The Company derecognises a financial liability when the obligation under the liability is discharged, cancelled or expired.

**Impairment of financial assets**

Financial assets at fair value through profit or loss are not subject to impairment under IFRS 9.

The Company holds only trade receivables with no financing component and which have maturities of less than 12 months at amortised cost and, as such, has chosen to apply an approach similar to the simplified approach for expected credit losses (ECL) under IFRS 9 to all its trade receivables. Therefore, the Company does not track changes in credit risk, but instead, recognises a loss allowance based on lifetime ECLs at each reporting date.

The Company's approach to ECLs reflects a probability-weighted outcome, the time value of money and reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Company uses the provision matrix as a practical expedient to measuring ECLs on trade receivables, based on days past due for groupings of receivables with similar loss patterns. Receivables are grouped based on their nature. The provision matrix is based on historical observed loss rates over the expected life of the receivables and is adjusted for forward-looking estimates.

**Offsetting of financial assets and financial liabilities**

A financial asset and a financial liability is offset and the net amount is reported in the statement of financial position of the Company has a legally enforceable right to set-off the recognised amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

**4.6 Investment in subsidiaries, associates and joint venture**

Investment in subsidiaries are stated at cost less impairment, if any.

Investments in associates and joint ventures are carried at fair value.

Unquoted investments, where fair value cannot be reliably measured are carried at cost.

**4.7 Derivatives**

These are measured at fair value. Derivatives with positive fair values (unrealised gains) are included in other assets and derivatives with negative fair values (unrealised losses) are included in other liabilities in the statement of financial position. The resultant gains and losses are included in the profit and loss statement.

**4.8 Employee retirement benefits and other obligations****4.8.1 Gratuity scheme**

The Company operates an approved funded gratuity scheme in respect for all permanent employees who have completed the minimum qualifying period of service for entitlement of gratuity. The scheme defines the amounts of benefit that an employee will receive on or after retirement subject to a minimum qualifying period of service under the scheme. The amounts of retirement benefits are usually dependent on one or more factors such as age, years of service and salary. The liability recognised in respect of gratuity scheme is the present values of the defined benefit obligations under the scheme at the statement of financial position date less the fair value of respective plan assets.

The gratuity is calculated annually by independent actuaries using the Projected Unit Credit Method. The most recent valuation in this regard was carried out as at June 30, 2021. The present values of the obligations are determined by discounting the estimated future cash outflows using interest rates of high quality government securities that have terms to maturity approximating to the terms of the related obligations.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised directly in equity in the statement of comprehensive income in the period in which they arise. All past service costs are recognised at the earlier of when the amendments or curtailment occurs and when the Company has recognised related retirement or termination benefits.

**4.8.2 Defined contribution plan**

The Company operates an approved defined contributory provident fund scheme for all permanent employees and defined contribution pension fund who have completed the minimum qualifying period of service. Equal contributions are made by the Company and the employees to both the fund at the rate of 11 percent of basic salary.

**4.8.3 Employee compensated absences**

The Company accounts for accumulated compensated absences of employees in accordance with the independent actuarial valuation. The latest actuarial valuation was carried out as of June 30, 2021.

**4.8.4 Long service award**

The company makes provision for long service award to which employees are entitled after the completion of each five year of their service, with a minimum of 15 years of service.

**4.9 Taxation****Current**

The charge for current taxation is based on taxable income at the current rates of taxation after taking into account applicable tax credits, rebates and exemptions available.

**Deferred**

Deferred tax is calculated using the liability method on all temporary differences at the statement of financial position date, between the tax base of the assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences and unused tax losses to the extent that it is probable that the deductible temporary differences will reverse in the future and sufficient taxable profits will be available against which the deductible temporary differences and unused tax losses can be utilised.

The carrying amount of all deferred tax assets is reviewed at each statement of financial position date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax assets to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the tax rates (and tax laws) that have been enacted or subsequently enacted at the statement of financial position date.

#### 4.10 Provisions for liabilities

Provisions are recognised when the Company has a legal or constructive obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each statement of financial position date and are adjusted to reflect the current best estimate.

#### 4.11 Revenue recognition

Capital gains or losses on sale of investments are recognised in the period in which they are raised.

Dividend income from investments is recognised when the Company's rights to receive dividend have been established.

Interest / return on loans, advances and bank balances are recognised on accrual basis.

Rental and service income is recognised on accrual basis.

Gains or losses on sale of investment properties and fixed assets are recognised in the period in which they are disposed off.

#### 4.12 Foreign currency transactions

Foreign currency transactions during the year are recorded at the exchange rates approximating those ruling on the date of the transaction. Monetary assets and liabilities in foreign currencies are translated at the rates of exchange which approximate those prevailing on the statement of financial position date. Gains and losses on translation are taken to income currently. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

#### 4.13 Dividend and appropriation to reserves

Dividend and appropriation to reserves are recognised in the financial statements in the period in which these are approved by the shareholders.

#### 4.14 Earnings per share

The Company presents basic and diluted earnings per share for its shareholders. Basic earnings per share is calculated by dividing the profit attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year.

#### 4.15 Cash and cash equivalents

Cash and cash equivalents include deposits with banks and other short term highly liquid investments with original maturities of three months or less.

#### 4.16 Government Grant

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. As the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed.

#### 4.17 Lease liabilities

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

##### Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**Lease liabilities**

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the termination option is reasonably certain to be exercised. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs. In calculating the present value of lease payments at the lease commencement date, the Company uses the interest rate implicit in the lease. In case where the interest rate implicit in the lease is not readily determinable, the Company uses its incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

**Short-term leases**

The Company applies the short-term lease recognition exemption to its short-term leases of premises (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases are recognised as expense on a straight-line basis over the lease term.

**Determining the lease term of contracts with renewal and termination options**

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control that affects its ability to exercise or not to exercise the option to renew or to terminate.

**Estimating the incremental borrowing rate**

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate ('IBR') to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

**5. ACCOUNTING ESTIMATES AND JUDGEMENTS**

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making judgements about carrying values of assets and liabilities. The estimates and underlying assumptions are reviewed on an ongoing basis.

Judgments made by management in the application of accounting policies that have significant effect on the financial statements and estimates with a significant risk of material adjustment are as follows:

|                                                                                                             | Note               |

10.3.1 Madian Hydro Power limited (MHPL) is a joint venture of the Company and Cherat Cement Company Limited. The project is formed to build, operate and maintain hydro power generation plant at Madian over River Swat for the generation and supply of electric power.

MHPL had completed technical feasibility of the project in 2009, which was approved by Private Power and Infrastructure Board (PPIB). Due to security situation in Swat, MHPL sought for an indefinite extension from PPIB for further post feasibility study deadlines applicable to the project. The PPIB's response to the request is still awaited. Some foreign investors have shown their interest in becoming part of this project, but nothing has materialised yet. In view of considerable delays associated with starting the project activities and the aforesaid uncertain situation, the management has assessed that the carrying value of the investment is impaired and, accordingly, provision for impairment had been made in these financial statements.

## 3. LONG-TERM FINANCING - GOVERNMENT GRANT

Represents financing obtained from a commercial bank under the refinance scheme for payment of wages and salaries introduced by State Bank of Pakistan carrying mark-up at the rate of 1% per annum. The loan along with the mark-up is repayable in 8 equal quarterly installments commencing from January 2021. The facility is secured by way of EM charge on various properties of Rs. 2,000 million. The total facility of the loan amounted to Rs. 132.5 million (2020: Rs.62.5 million) out of which Rs.28.138 million (2020: Rs.2.3 million) remained unutilized as at the statement of financial position date.

This loan is initially recorded at present value discounted at the effective interest rate i.e. 1 month KIBOR + 0.5% and the difference of the actual proceeds and present value is recognized as a deferred income - government grant. The purpose of the government grant is to facilitate the Company in making timely payments of salaries and wages to their employees in light of the COVID-19 pandemic. The grant is conditional upon the fact that the Company would not lay off, terminate employee or other wise dismiss any employee for a period of atleast three months from the date of receipt of the first tranche, except in the event of disciplinary action. The maturity analysis of the financing under refinance scheme for salaries and wages is as follows:

### 39. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

39.1 The Company's objective in managing risk is the creation and protection of shareholders' value. The Board of Directors of the Company supervises the overall risk management approach within the Company. The Company is exposed to market risk, credit risk and liquidity risk arising from the financial instruments it holds.

#### 39.2 Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates and equity prices.

##### (i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short term investments, bank deposits in saving accounts and short term borrowings from banks. At the statement of financial position date, the interest rate profile of the Company's interest-bearing financial instruments is as follows:

The following table demonstrates the sensitivity of Company's income for the year to a reasonably possible change in interest rates, with all other variables held constant.

| Change in basis point | Effect on profit             |          |
|-----------------------|------------------------------|----------|
|                       | 2021                         | 2020     |

(ii) **Foreign exchange risk**

Foreign currency risk is the risk of exposures to movement in foreign exchange rates. Company's risk is limited to the extent of investment in foreign companies and dividend income from such companies. As of the statement of financial position date, the Company is not exposed to such risk.

(iii) **Equity price risk**

Equity price risk is the risk of volatility in share prices resulting from their dependence on market sentiments, speculative activities, supply and demand for shares and liquidity in the market. The value of investments may fluctuate due to change in business cycles affecting the business of the investee Company, change in business circumstances of the investee Company, its business sector, industry and / or the economy in general. The Company estimates that a 5% increase in the overall equity prices in the market with all other factors remaining constant would increase the Company's equity by Rs. 1,007.89 million (2020: Rs. 521.41 million) and a 5% decrease would result in a decrease in the Company's equity by the same amount. However, in practice, the actual results may differ from the sensitivity analysis.

### 39.3 Liquidity risk

Liquidity risk is defined as the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. Liquidity risk arises because of the possibility that the Company could be required to pay its liabilities earlier than expected.

The table below summarises the maturity profile of the Company's financial liabilities. The analysis into relevant maturity groupings is based on the remaining period at the end of the reporting period to the contractual maturity date.

## 39.5 Fair value of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

## 39.5.1 Fair value hierarchy

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the statement of financial position date. The estimated fair value of all other financial assets and liabilities is considered not significantly different from book value.

**Level 1:** Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

**Level 2:** Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

**Level 3:** Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

## 39.5.1.1 Valuation techniques used in determination of fair values within level 2

Fair values of investments in units of mutual funds are determined based on redemption prices disclosed at the Mutual Funds Association of Pakistan (MUFAP) as at the close of the business days.

**39.6 Capital management**

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefit for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. The Company is not subject to any externally imposed capital requirements.

The Company manages its capital structure and makes adjustment to it in the light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders or issue new shares.

The Company monitors capital using the gearing ratio, which is debt divided by total equity plus debt. However, there are short term borrowings amounting to Rs.1,234.78 million (2020: Rs.2,968.98 million), resulting into 3.01% (2020: 7.13%) gearing ratio.
