**INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF
ATLAS METALS (PRIVATE) LIMITED****REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS****Opinion**

We have audited the annexed financial statements of **Atlas Metals (Private) Limited** (the Company), which comprise the statement of financial position as at June 30, 2023, and the statement of profit or loss and other comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2023 and of the profit and other comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Statements and Auditors' Report Thereon

Management is responsible for the other information. The other information comprises of the Directors' Report (but does not include the financial statements and our auditors' report thereon).

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) no Zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit resulting in this independent auditors' report is Raheel Ahmed.

ATLAS METALS (PRIVATE) LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2023

1 Legal status and operations

Atlas Metals (Private) Limited (the Company) was incorporated in Pakistan as a Private Limited Company on September 18, 2012 under the repealed Companies Ordinance, 1984 (now the Companies Act, 2017). The Company is a wholly owned subsidiary of Shirazi Investments (Private) Limited. The principal activity of the Company is to manufacture parts for batteries. The registered office of the Company is situated at 2nd floor, Federation House, Shahrah-e-Firdousi, Clifton, Karachi, Pakistan.

The geographical location and address of the factory of the Company is 15th mile, National Highway, Landhi, Karachi.

2 BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017 (the Act);
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as notified under the Act; and
- Provision of and directives issued under the Act.

Where provision of and directives issued under the Companies Act, 2017 differ from the IFRS, the provision of and directives issued under the Companies Act, 2017 have been followed.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention except for certain financial instruments, which are carried at fair values and staff retirement benefit - gratuity which is carried at present value of defined benefit obligation net of fair value of plan assets.

2.3 Functional and presentation currency

These financial statements have been presented in Pakistani rupee, which is the Company's functional and presentation currency.

3 NEW AND AMENDED STANDARDS AND INTERPRETATIONS

3.1 Standards and amendments to approved accounting standard effective in current year

New and amended standards mandatory for the first time for the financial year beginning July 1, 2022:

- (a) Amendments to IAS 37 'Provisions, Contingent Liabilities and Contingent Assets' is applicable for accounting periods beginning on or after January 1, 2022. Under IAS 37, a contract is 'onerous' when the unavoidable costs of meeting the contractual obligations – i.e. the lower of the costs of fulfilling the contract and the costs of terminating it – outweigh the economic benefits. The amendments clarify that the 'costs of fulfilling a contract' comprise both the incremental costs – e.g. direct labour and materials; and an allocation of other direct costs – e.g. an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract.

- (b) Amendment to IAS 16 'Property, plant and Equipment' is applicable on accounting periods beginning on or after January 1, 2022. The amendments prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss. The amendments apply retrospectively, but only to items of PPE made available for use on or after the beginning of the earliest period presented in the financial statements in which the company first applies the amendments.

There were certain other amendments to accounting and reporting standards which became mandatory for the Company during the current year but are considered not to be relevant or have any significant effect on the Company's financial reporting therefore have not been disclosed in these financial statements.

3.2 Standards, amendments to approved accounting standards and interpretations that are not yet effective and have not been early adopted by the Company

The following new standards and amendments to approved accounting standards are not effective for the financial year beginning on July 1, 2022 and have not been early adopted by the Company:

- (a) Amendments to IAS 1, 'Presentation of Financial Statements' is applicable on accounting periods beginning on or after January 1, 2023. The amendments includes requiring companies to disclose their material accounting policies rather than their significant accounting policies, clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed and also clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements.
- (b) Amendments to IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors' will be applicable on accounting periods beginning on or after January 1, 2023. The International Accounting Standards Board (the Board) has issued amendments to end diversity in treatment of accounting estimates and clarified how companies should distinguish changes in accounting policies from changes in accounting estimates, with a primary focus on the definition of and clarifications on accounting estimates. Developing an accounting estimate includes both selecting a measurement technique (estimation or valuation technique) – e.g. an estimation technique used to measure a loss allowance for expected credit losses when applying IFRS 9 Financial Instruments; and – choosing the inputs to be used when applying the chosen measurement technique – e.g. the expected cash outflows for determining a provision for warranty obligations when applying IAS 37 Provisions, Contingent Liabilities and Contingent Assets. The effects of changes in such inputs or measurement techniques are changes in accounting estimates.
- (c) Amendments to IAS 12, 'Income taxes' will be applicable on accounting periods beginning on or after January 1, 2023. The amendments narrow the scope of the initial recognition exemption (IRE) so that it does not apply to transactions that give rise to equal and offsetting temporary differences. As a result, companies will need to recognise a deferred tax asset and a deferred tax liability for temporary differences arising on initial recognition of a lease and a decommissioning provision.
- (d) Amendments to IAS 1 'Presentation of Financial Statements' is applicable on accounting periods beginning on or after January 1, 2023. Under existing IAS 1 requirements, companies classify a liability as current when they do not have an unconditional right to defer settlement of the liability for at least twelve months after the end of the reporting period. As part of this amendments, the requirement for a right to be unconditional has been removed and instead, the amendments requires that a right to defer settlement must have substance and exist at the end of the reporting period.

- (e) Amendments to IFRS 16 'Leases' are applicable on accounting periods beginning on or after January 1, 2024. Amendments impact how a seller-lessee accounts for variable lease payments that arise in a sale-and-leaseback transaction. On initial recognition, the seller-lessee includes variable lease payments when it measures a lease liability arising from a sale-and-leaseback transaction. After initial recognition, the seller-lessee applies the general requirements for subsequent accounting of the lease liability such that it recognises no gain or loss relating to the right of use it retains. The amendments introduce a new accounting model for variable payments and will require seller-lessees to reassess and potentially restate sale-and-leaseback transactions entered.
- (f) Amendments to IAS 1 'Presentation of Financial Statements' is applicable on accounting periods beginning on or after January 1, 2024. Under existing IAS 1 requirements, companies classify a liability as current when they do not have an unconditional right to defer settlement of the liability for at least twelve months after the end of the reporting period. As part of this amendments, the requirement for a right to be unconditional has been removed and instead, the amendments requires that a right to defer settlement must have substance and exist at the end of the reporting period. This right may be subject to a company complying with conditions (covenants) specified in a loan arrangement. At October 31, 2022, after reconsidering certain aspects of the amendments, the IASB reconfirmed that only covenants with which a company must comply on or before the reporting date affect the classification of a liability as current or non-current. Covenants with which the company must comply after the reporting date (i.e. future covenants) do not affect a liability's classification at that date. However, when non-current liabilities are subject to future covenants, companies will now need to disclose information to help users understand the risk that those liabilities could become repayable within 12 months after the reporting date.

The management anticipates that the adoption of the above standards, amendments and interpretations in future periods, will have no material impact on the financial statements other than in presentation / disclosures. There are number of other standards, amendments and interpretations to the approved accounting standards that are not yet effective and are also not relevant to the Company and therefore, have not been presented here.

4 SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of policies and the reported amount of assets, liabilities, income and expenses.

The estimates and judgments are based on historical experience and various other factors that are believed to be reasonable under the circumstances and are continually evaluated. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised if the revision affects only that period, or in the period of the revision and future periods. Judgments made by management in application of the approved accounting standards that have significant effect on the financial statements and estimates with a significant risk of material adjustments in the next year are discussed in respective policy note. The areas involving significant estimates or judgments are:

- (i) Estimate of useful lives and residual values of property, plant & equipment - note 5.2
- (ii) Estimation of current and deferred tax - notes 5.9 & 5.10
- (iii) Estimate of payables & receivables in respect of employees' retirement benefit - note 5.11
- (iv) Provision for doubtful debts - note 5.15

5 SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented unless otherwise stated.

5.1 Going concern

The Company has incurred profit before tax Rs.11,424 thousands (2022: loss of Rs.153,312 thousands). These financial statements have been prepared under going concern assumption as the Company is reframing the operations and expects profitability in future from its parts casting and investment business. Further the Holding Company of the Company have confirmed their intent to provide financial support to the Company to enable it to continue as a going concern.

5.2 Property, plant and equipment

5.2.1 Owned assets

These are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is charged to the statement of profit or loss using the reducing balance method. Depreciation on additions during the year is charged from the month when the asset is available for use whereas, depreciation on disposals is not charged in the month in which the disposal takes place.

Major renewals and improvements for assets are capitalized and the assets so replaced, if any, are retired. Maintenance and normal repairs are charged to the statement of profit or loss as and when incurred. Assets' residual values, useful lives and method of depreciation are reviewed and adjusted, if appropriate at each reporting date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Gains or losses on disposal or retirement of an asset represented by the difference between the sale proceeds and the carrying amount of the asset is charged to statement of profit or loss.

5.2.2 Capital work-in-progress

Capital work-in-progress is stated at cost less accumulated impairment losses, if any, and consists of expenditure incurred and advances made in respect of operating fixed assets in the course of their acquisition, erection, construction and installation. The assets are transferred to relevant category of operating fixed assets when they are available for use.

5.3 Stores, spares & loose tools

Stores, spares and loose tools are stated at lower of cost and net realizable value. The cost of stores, spares and loose tools is based on weighted average cost. Items-in-transit are stated at cost accumulated up to the reporting date. The Company reviews the carrying amounts of stores, spares and loose tools on an on-going basis and provision is made for obsolescence if there is any change in usage pattern and physical form. Impairment is also made for slow moving items, if any.

5.4 Stock-in-trade

Stock-in-trade is valued at lower of cost and net realizable value. Cost of raw materials and components represent invoice values plus other charges incurred thereon. Cost of inventory is based on weighted average cost. Cost in relation to work-in-process and finished goods represent direct cost of raw materials, wages and appropriate manufacturing overheads. Goods in transit are valued at cost accumulated up to the reporting date.

The Company reviews the carrying amount of stock-in-trade on an on-going basis and as appropriate, inventory is written down to its net realizable value or provision is made for obsolescence if there is any change in usage pattern and physical form of related inventory.

Net realizable value is the estimated selling price in the ordinary course of business less costs of completion and cost necessary to be incurred in order to make the sale.

5.5 Impairment of assets

An assessment is made at each reporting date to determine whether there is any indication of impairment or reversal of previous impairment, including items of property, plant and equipment and intangible assets. In the event that an asset's carrying amount exceeds its recoverable amount, the carrying amount is reduced to recoverable amount and an impairment loss is recognized in the statement of profit or loss. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the recoverable amount, however not to an amount higher than the carrying amount that would have been determined (net of amortization or depreciation), had no impairment losses been recognized for the asset in prior years. Reversal of impairment loss is restricted to the original cost of the asset.

5.6 Provisions

Provisions, if any are recognized when:

- a) the Company has a present obligation (legal or constructive) as a result of past events;
- b) it is probable that an outflow of resources will be required to settle the obligation; and
- c) a reliable estimate of the amount can be made.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

5.7 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables are measured at the transaction price determined under IFRS 15.

In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

Financial assets at amortized cost (debt instruments)

This category is the most relevant to the Company. The Company measures financial assets at amortized cost if both of the following conditions are met:

- The financial assets are held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognized in the statement of profit or loss when the asset is derecognized, modified or impaired.

The Company's financial assets at amortized cost includes trade receivables, loan to employees, other receivables and bank balances.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Company's statement of financial position) when:

- The rights to receive cash flows from the asset have been expired; or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership.

When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

The Company recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For trade receivables, the Company applies a simplified approach in calculating ECLs.

Therefore, the Company does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Company considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and net of directly attributable transaction costs.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Gains or losses on liabilities held for trading are recognized in the statement of comprehensive income.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in IFRS 9 are satisfied. The Company has not designated any financial liability as at fair value through profit or loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of comprehensive income.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Company's statement of financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

5.8 Revenue recognition

Revenue is recognized at a point in time at which a customer obtains control of the promised goods and the Company satisfies the performance obligation. Therefore, sales are recorded on dispatch of goods to customers which generally coincides with physical delivery of goods to customer, i.e. when the significant risks and reward of ownership have been transferred to the customer.

- Profit on bank deposits and other income are accounted for on accrual basis.
- Dividend income is recognized when the right to receive such payment is established.

5.9 Taxation

The charge for current taxation is based on taxable income at the current rate of taxation after taking into account applicable tax credit, rebates and exemption available, if any.

5.10 Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes using statement of financial position liability method. It is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date. Deferred tax liabilities are recognized for all taxable temporary differences, while deferred tax assets are recognized for all deductible temporary differences, carry-forward of unused tax losses, to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences, carry forward of unused tax losses can be utilized.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

5.11 Staff retirement benefits**5.11.1 Defined benefit plan**

The Company operates a funded gratuity scheme for its permanent employees. The Company's obligation under the scheme is determined through actuarial valuations carried out under the "Projected Unit Credit Method". The latest actuarial valuations were carried out at June 30, 2023. The amounts arising as a result of re-measurements are recognized in other comprehensive income in the periods in which they occur. All past service costs are recognized at the earlier of when the amendment or curtailment occurs and when the Company has recognized related restructuring or termination benefits.

5.11.2 Defined contribution plan

The Company operates a recognized provident fund for its permanent employees. Equal monthly contributions are made to the fund at the rate of 11% by the employees and the Company in accordance with the rules of the scheme.

Employees are given option to transfer the complete amount or any portion thereof standing to credit of his accumulated balance in the Fund, to any of the Voluntary Pension Schemes managed by the Atlas Asset Management Company Limited, an associated company under the Voluntary Pension System Rules, 2005, viz, Atlas Pension Fund and Atlas Pension Islamic Fund by a request to the Trustees of fund, in writing.

As of the reporting date, no eligible employee falls under provident fund as all the eligible employees have opted to transfer the complete balance to voluntary pension schemes managed by the Atlas Management Company Limited.

5.12 Compensated absences

The Company provides a facility to its eligible employees for accumulating their annual earned leave under an unfunded scheme. Accruals are made to cover the obligation under the scheme on annual basis and are charged to the statement of profit or loss. Accrual for compensated absences is calculated on the basis of one month's gross salary. The amount of liability recognized in the statement of financial position is calculated by the Company using the above basis as the difference in liability is not expected to be material using the Projected Unit Credit Method.

5.13 Foreign currency translation

Transactions in foreign currencies are translated into Pakistani Rupee at the rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the exchange rate ruling at the reporting date. Exchange gains and losses are recognized in the statement of profit or loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

5.14 Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than twelve months after the reporting date, which are classified as non-current assets. Loans and receivables comprise trade debts, loans, advances, deposits, other receivables and bank balances as at the reporting date. These are stated at amortized cost less impairment, if any.

5.15 Trade debts and other receivables and related impairment

Trade debts and other receivables shall be classified as financial assets at amortized cost according to IFRS 9.

Trade debts are initially recognized at original invoice amount which is the fair value of the consideration to be received in future and subsequently measured at cost less provision for doubtful debts. The Company uses simplified approach for measuring the expected credit losses for all trade and other receivables including contract assets based on lifetime expected credit losses. The Company has estimated the credit losses using a provision matrix where trade receivables are grouped based on different customer attributes along with historical, current and forward looking assumptions. Debts considered irrecoverable are written off.

5.16 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost and are defined as cash in hand, cash at banks and short term highly liquid investments, that are readily convertible to known amounts of cash and subject to insignificant risk of change in value. For the purpose of statement of cash flows, cash and cash equivalents consist of cash in hand and balances in bank net of short term running finance, if any.

5.17 Non-current assets held for sale

Non-current assets are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction rather than continuing use and sale is considered highly probable. They are stated at the lower of carrying amount and fair value less cost to sell.

5.18 Trade and other payables

Liabilities for trade and other payables are carried at original invoice amount / cost, which approximate is the fair value of the consideration to be paid in future for goods and services received, whether or not billed to the Company.

5.19 Dividend and appropriation to reserves

Dividend and appropriation to reserves are recognized in the financial statements in the year in which these are approved. However, if these are approved after the reporting date but before the financial statements are authorized for issue they are disclosed to the notes to the financial statements.

			<u>62,550,316</u>	<u>106,600,004</u>

19.1 Payable to staff retirement benefit fund

19.1.1 As stated in note 5.11.1, the Company operates an approved funded gratuity scheme for its staff who completes the qualifying period of service.

19.1.2 Plan assets held in trust are governed by local regulations which mainly includes Trust Act, 1882, Companies Act, 2017, Income Tax Rules, 2002 and Rules under the Trust deed of the Plan. Responsibility for governance of the Plan, including investment decisions and contributions schedules lies with the Board of Trustees. The Company appoints the trustees.

19.1.3 The latest actuarial valuation of the scheme as at June 30, 2023 was carried out by an independent expert, using the 'Projected Unit Credit Method'. Details of the scheme as per the actuarial valuation are as follows:

19.1.4 Reconciliation	Note	2023 ----- Rupees -----	2022 -----
Present value of defined benefit obligation	19.1.7	233,903	10,561,128
Fair value of plan assets	19.1.8	(12,798,993)	(11,766,416)
Liability transferable to other group companies		13,018,882	2,445,884
		<u>453,792</u>	<u>1,240,596</u>

19.1.5 Movement in liability:

	Note	2023 ----- Rupees -----	2022 -----
Balance as at beginning of the year		1,240,596	(42,391)
Charge for the year	19.1.6	545,674	314,129
Actuarial (gain) / loss charged to other comprehensive income		(1,332,478)	968,858
Balance as at end of the year		<u>453,792</u>	<u>1,240,596</u>

19.1.6 Charge for the year:

Current service cost		548,211	479,350
Interest cost - net		(2,537)	(165,221)
		<u>545,674</u>	<u>314,129</u>

19.1.7 Movement in defined benefit obligation:

Balance as at beginning of the year		10,561,128	8,941,160
Current service cost		548,211	479,350
Interest cost		1,406,986	899,666
Liability in respect of Inter Group Transfers		(10,572,998)	-
Actuarial (gain) / loss charged to other comprehensive income		(1,709,424)	240,952
Balance as at end of the year		<u>233,903</u>	<u>10,561,128</u>

19.1.8 Movement in fair value of plan assets:

Balance as at beginning of the year		11,766,416	12,285,803
Interest income on plan assets		1,409,523	1,064,887
Transfer of assets in respect of transferees		-	(856,368)
Actuarial loss charged to other comprehensive income		(376,946)	(727,906)
Balance as at end of the year		<u>12,798,993</u>	<u>11,766,416</u>

19.1.9 Principal actuarial assumptions:

Discount rate	16.25%	13.25%
Salary increase rate for the first year	15.00%	13.50%
Long term salary increase rate	15.25%	12.25%
Demographic assumptions		
- Mortality rates (for death in service)	SLIC (2001-05) - 1	
- Rates of employee turnover	Heavy	Moderate

19.1.10 Sensitivity analysis for actuarial assumptions

The sensitivity of the defined benefit obligation to changes in principal assumptions is:

Impact on defined benefit obligation			
Change in assumptions		Increase in assumptions	Decrease in assumptions
		----- Rupees -----	----- Rupees -----
Discount rate	1.00%	215,320	254,984
Long term salaries	1.00%	253,885	215,954

The sensitivity analysis is based on a change in an assumption while holding all other assumptions constants. In practice, this is unlikely to occur, and change in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the projected unit credit method at the end of reporting period) has been applied as when calculating the gratuity liability recognized within the statement of financial position.

The method and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

19.1.11 Based on actuary's advice, the expected income for the year ending June 30, 2024 amounts to Rs. 924 thousand.

19.1.12 The weighted average duration of the gratuity scheme is 7.94 years. Expected maturity analysis of undiscounted retirement benefit plans:

	Less than a year	Between 1-2 years	Between 2-5 years	Over 5 years	Total
	----- Rupees -----				
As at June 30, 2023	19,992	23,057	90,649	3,575,902	3,709,600

19.1.13 Plan assets comprise the following:

	2023		2022	
	Rupees	%	Rupees	%
Debt	1,949,322	15%	3,295,355	28%
Mutual funds	10,839,828	85%	8,402,352	71%
Cash	9,843	0%	68,709	1%
	12,798,993	100%	11,766,416	100%

OGRA gas tariff difference	21,688,070	-	-	21,688,070
June 30, 2022	43,095,720	-	-	43,095,720

20 CONTINGENCIES AND COMMITMENTS**20.1 Contingencies****20.1.1 Sales tax**

Deputy Commissioner Inland Revenue (DCIR), Enforcement-I, Medium Tax Office, Karachi served show cause notice dated September 28, 2020 pertaining to tax period July 2017 to June 2019, stating that the Company has claimed inadmissible input tax on the purchases from M/s. Denar Industries (Private) Limited, who was involved in claiming input tax against fake invoices amounting to Rs.39,156,459. The Company submitted its response stating that the said supplier was neither blacklisted nor blocked by FBR at the time of input claim and that subsequent blacklisting of a supplier could not deprive the registered person of its right of claim of input tax. Further, the Company has complied with all the requirements as required under Sales Tax Act, 1990 for claim of input tax. DCIR on November 25, 2020, raised the demand against the notice amounting Rs.39,156,459. The Company has filed an appeal before Commissioner Inland Revenue (Appeals) [CIR(A)] which was decided against the Company on February 24, 2021. The Company has filed an appeal before Appellate Tribunal Inland Revenue (the Tribunal) which is pending adjudication. However, the Tribunal has issued stay order against the aforesaid demand.

20.1.2 Other

The Company is defending a suit in Honourable High Court of Sindh for recovery of Rs.73.49 million under Fatal Accident Act, 1855. The case is pending for hearing. No provision have been made in these financial statements.

20.2 Commitments

There were no known commitments at June 30, 2023 and June 30, 2022.

	<u>246,432</u>	<u>(35,863,317)</u>

- 26.1** The returns of the Company is filed under group taxation in term of section 59AA of the Income Tax Ordinance, 2001. Further separate returns of the Company also filed in compliance with the provision of Rule 231D for record purposes only. No numeric tax rate reconciliation is given in the financial statements, as provision made during that year primarily represents minimum tax due under section 113 of the Income Tax Ordinance, 2001.

27 FINANCIAL RISK MANAGEMENT - OBJECTIVES AND POLICIES

The Company's activities expose it to a variety of financial risks i.e. credit risk, liquidity risk and market risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance. The Board of Directors reviews and agrees policies for managing each of these risks which are summarized below:

27.1 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

Concentrations of credit risk arise when a number of counterparties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Company's performance to developments affecting a particular industry. The Company seeks to minimize the credit risk exposure by dealing mostly with regular and permanent parties who pay on due dates.

The table below provides the analysis of the credit quality of financial assets on the basis of external credit rating or the historical information about counter party default rates.

	Note	2023 ----- Rupees -----	2022 -----
Long term deposits		-	3,000,084
Trade debts	10	-	10,156,421
Advances to suppliers	12	7,813,104	7,813,104
Other receivables	12	30,249	5,982
Bank balances	14	18,162,343	9,432,207
		<u>26,005,696</u>	<u>30,407,798</u>

27.1.1 Bank balances - rating

The credit quality of Company's bank balances can be assessed with reference to the external credit ratings as follows:

Banks	Rating		
	agency	short term	long term
Habib Bank Limited	JCR-VIS	A-1+	AAA
Standard Chartered Bank (Pakistan) Limited	PACRA	A1+	AAA
Faysal Bank Limited	JCR-VIS	A-1+	AA
Dubai Islamic Bank Pakistan Limited	JCR-VIS	A-1+	AA
National Bank of Pakistan	PACRA	A1+	AAA
MCB Bank Limited	PACRA	A1+	AAA
Bank Al-Falah Limited	PACRA	A-1+	AA+
Allied Bank Limited	PACRA	A1+	AAA
Samba Bank Limited	JCR-VIS	A1	AA
Soneri Bank Limited	PACRA	A1+	AA-
Meezan Bank Limited	JCR-VIS	A-1+	AAA
Habib Metropolitan Bank Limited	PACRA	A-1+	AA+
Mutual funds			
Atlas Money Market Fund	PACRA		AA+(f)
Atlas Liquid Fund	PACRA		AA+(f)

27.1.2 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulties in raising funds to meet commitments associated with financial instruments. The Company applies the prudent risk management policies by maintaining sufficient cash and bank balances and by keeping committed credit lines. Table below summarizes the maturity profile of the Company's financial liabilities at the following reporting dates based on contractual undiscounted payments.

	Carrying amount	On demand	Maturity up to one year	Maturity more than one year
-----Rupees-----				
June 30, 2023				
Trade and other payables	62,286,215	43,095,720	19,190,495	-
June 30, 2022				
Trade and other payables	106,019,791	43,095,720	62,924,071	-

27.1.3 Market risk

Market risk is the risk that the fair value of future cash flows of financial instrument will fluctuate due to changes in market variables such as interest rate, foreign exchange rates and equity prices.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the financial instruments will fluctuate because of changes in the market interest rates. The Company manages its interest rate risk by placing its excess funds in deposit accounts in banks. The Company's not materially exposed to the risk of changes in market interest rates.

27.2 Fair value of financial instrument

Financial instruments comprise of financial assets and financial liabilities. Financial assets consist of bank balances, trade deposits, loans and other receivables. Financial liabilities consist of trade and other payables and short-term running finance. The fair values of financial instruments are not materially different from their carrying values.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The following table presents the Company's financial assets that are measured at fair value through profit or loss at June 30, 2023 and June 30, 2022.

	Level 1	Level 2	Level 3	Total
-----Rupees-----				
Assets - Recurring fair value measurement				
June 30, 2023
